# RSAA25

Research Software Asia Australia 2025

## Theme: Connecting with Community

 17 September 17–19, 2025 |  Online

## Support the Region's Leading Research Software Community

RSAA25 is the only conference that unites Research Software Engineers (RSEs) across Asia and Australia. Our goal is to grow a vibrant, equitable community supporting impactful, sustainable research software.

By sponsoring RSAA25, you join a movement building the future of research infrastructure, open science, and digital scholarship — while gaining direct access to an influential and growing audience.

## Your Sponsorship Powers

- **Community Building:** Support initiatives that connect researchers, developers, and technologists across disciplines and borders.
- **Equity and Inclusion:** Help fund fellowships, translations, and accessibility programs.
- **Global Visibility:** Position your brand as a champion of open science and technical excellence.
- **Sector Leadership:** Align with government, industry, and academic leaders setting research software agendas.

## Opportunities to Support

-  Keynote sponsorship
-  Regional coordination or platform support
-  Championships and accessibility grants
-  Tools, tech, and community resources
-  Awards or branded workshops
